### Home for Sale

I have a house and two lots in Central addition, Plymouth, that I will sell at a fine bargain for some one who wants a comfortable home in town. These lots are No. 119 and 120 in Central Addition, which is on west Jackson street, two blocks west of the barrel factory. Each of these lots is 40x140 feet and on one of them is a good house of five rooms, built in 1908. The three rooms down stairs are 8x14, 12x14 and 14x14 in size, and the upstairs rooms are each 10x14 feet. The building is cased with good hard pine, has three glass doors and large windows. There is a well of good water 42 feet deep. These lots are high and dry, and most of the people here own their homes. The residence is near the beautiful Packard wood, one of the most pleasant places in Plymouth, and is also within easy distance of most of the factories of the city. I will take for this property \$6000 cash. Call at this office or see John Wively. dw 1n

## Have You a Chest Protector?

You may not need one. Those who do need them are those who take cold easily, who naturally have weak lungs, who when they get colds have difficulty in getting rid of them, and also those who are compelled to be out of doors in all kinds of weather.

For those who do need them, Chest Protectors are always a valuable investment.

We carry all styles and grades. Let us show them to you.

# Here are Good Styles

You Will Not Tire of

One of the greatest compliments you can pay a friend is to say "She wears well"

It is because on close acquaintance, she continues to be what you thought she was at the start. She stays nice. The same thing applies to the right sort of a garment. You keep on liking it. You don't tire of it. Continued every day association with it does not destroy its charm.

That is why we so strongly recommend our Wooltex garment to you. Each garment stays just as pleasing and satisfactory as it looked to you when you bought it. It's the safe kind to buy

Visit our Cloak Department and let us show you the Wooltex Coats and Suits for Fall
